26 PERSONS KILLED IN "SUNSET" WRECK

One Hundred Others Seriously Injured.

KILLED SAID TO BE ITALIANS

Florence Roberts Theatrical Company on the Train, But Members Escaped—Wrecked Coaches Were Smashed to Splinters.

Colton, Cal., March 30.—A disastrous wreck on the Southern Pacific occurred one and one-half miles east of here late Thursday afternoon when westbound train No. 8 from New Orleans for San Francisco ran into an open switch. Ten of the 14 coaches were derailed. Twenty-six persons are known to have been killed, and the final list will probably total much higher. The injured number about 100.

The wrecked coaches were hurled in every direction and four were smashed into splinters. Most of the dead are Ttalians from New York and New Orleans, going to San Francisco. They occupied the smoker and day coach.

Eighteen corpses were brought to Colton and additional bodies could be seen underneath the demolished cars. This car could not be raised until a derrick was brought from Los Angeles, 60 miles distant.

But two Americans are known to have been killed. George L. Sharp of Muncie, Ind., was instantly killed. The baggageman, whose name has not been ascertained, was also killed. The engineer, Clarence E. Wormington and Fireman Victor Grebb were caught in the wreckage and Pullman passengers, only two sustained serious injury.

The three Pullman coaches and the diner, which were on the rear of the train, did not leave the track.

The Florence Roberts Theatrical company occupied one coach, which was hurled to the track and both ends of it crushed in by impact against the others. Two of the other twenty-two members were injured. Miss Roberts escaped unhurt.

The escape from death of the occupants of this car was remarkable. The scenery and properties carried were demolished.

There were three tracks where the accident occurred, which is in the open country. The people of Colton were first to be notified of the disaster. Hundreds hurried to the scene and physicians and nurses were brought from San Bernadine and Colton.

The derailment of the train was caused by the crew of a switch engine leaving a switch open at this point. It is said that the engine passed through the switch a few minutes before the Overland appeared.

A switchman, named Morrison, was in the yard. After the switch engine had passed on the other track the engineer asked the fireman if he had thrown the switch. The fireman recalled that he had neglected to do so and the engineer whistled frantically for Morrison to close it. The signal was not given in time, as Morrison did not reach the switch before the Overland had plunged through and been derailed.

The train, which was due in Los Angeles at 7:30, was nearly 12 hours behind time and was running at a high rate of speed. There was absolutely no warning of the catastrophe. The engineer saw the signal when only a short distance away and had not time to sound a whistle of warning, much less to reverse the throttle or set the brakes. He called to his fireman to jump, and both leaped widly from opposite sides of the engine. The engine left the track, turned over on its side and ploughed a great distance along the right of way.

Railroad Manager Dead.

Chicago, March 30.—Edward C. Nicholas, 37 years of age, vice president and general manager of the South Side Elevated Railroad company, died Thursday night of pneumonia. He had been ill for two weeks.

IS INDICTED BY GRAND JURY.

Charged with Embezzling Sum of $52,000.

Atlanta, March 30.—The grand jury Thursday found an indictment against M. M. Turner, charging him with embezzlement from the Georgia Loan and Redemption company, of which he was secretary and treasurer.

The indictment did not come in the nature of a surprise to those who have kept up with the case. When Mr. Turner was arrested, at the instance of Judge J. C. McKinnon, of Marianna, Fla., who swore out a warrant in Judge Orr's court, he gave bond in the sum of $2,000. When the committment trial came up Mr. Turner was sick and Judge Orr postponed the hearing until April 1st.

Judge McKinnon was not at all pleased with the turn affairs took, and it was then planned to present the facts to the grand jury as soon as they met.

Eugene R. Black, who was temporary receiver for the company and on whose report the warrant was based. A. P. Marbut, R. D. Cruso, John P. McClelland and J. P. Windsor appeared before the grand jury.

The indictment charges that Turner embezzled the sum of $52,000. He was served with notice of the indictment and made a new bond.

Mr. Turner is still at his country home recuperating from his recent illness, and could not be seen. He is reported to be improving and will soon be out.

Twenty-eight true bills and two no bills were returned by the grand jury and then it adjourned subject to call.

Among the indictments were W. B. Putnam, for perjury in connection with testimony which he gave in the suit he brought against T. W. McCord in the city court. George W. Mitchell was indicted for assault with intent to murder for shooting Mrs. May Mitchell. Two indictments were returned for kidnaping—one against G. B. Wells, charged with kidnaping Alphonse Sanders, and one against J. O. Watkins, for kidnaping John Lewis Stephens. Two indictments for murder were also found.

Two Negroes Meet Death.

Atlanta, March 30.—Pink Moore and Will Smith, two negroes who were fearfully injured in the explosion of dynamite or percussion caps early Wednesday morning in the Peters street freight yards of the Southern railway, died at the Grady hospital, increasing the deaths caused by the explosion to four. It was realized by the physicians at the hospital as soon as the men were examined that nothing could be done to save their lives, and they were rendered comfortable as possible until death relieved them of the sufferings entailed by their frightful wounds.

New Trial Is Denied.

Hartwell, Ga., March 30.—Judge Walter L. Hodges, of the city court of Hartwell, has handed down a decision in the case of Callie Mouchet versus the Southern Railway company, denying a new trial, which was asked by the railway company. Mrs. Mouchet sued for and recovered $1,999 for the killing of her husband at Bowersville, Ga., in the spring of last year. The case was stubbornly contested in the city court, occupying three days in the trial. The case will go to the court of appeals.

Mad Dog Bites Child.

Lithonia, Ga., March 30.—A dog belonging to L. Z. Miles of this place suposed to be mad, bit Curtis Blackmon, the 8 -year-old son of Mr. and Mrs. W. O. Blackmon. The child was bitten in two places on the calf of the leg. The parents of the boy carried him to the Pasteur institute in Atlanta fo rtreatment. The dog was killed and his head was sent to the Pasteur institute for dissection.

Order to Chicago.

San Francisco, March 30.—The Call says that Lieutenant General Arthur MacArthur has been ordered to Chicago to take command of the department of the lakes. General MacArthur has been stationed here for the last four years. He came here as commander of the department of California, two years later was made commander of the Pacific division.

EXILE WELCOMED BY CRUTCHFIELD

His Wife and Children Will Remain In Atlanta.

REMARKABLE CASE IS ENDED

Understood that Mrs. Crutchfield Is Considering Study of Stenography. Judge Calhoun Tells Crutchfield that People Are Down on Him.

Atlanta, March 30—J. H. Crutchfield left the city Friday to return to the state of Georgia no more.

Thursday he appeared before Judge Calhoun, pleaded guilty, was sentenced to 12 months in the chaingang and assessed a fine of $200. In consideration of his promise to leave the state, the chaingang sentence was suspended. This he agreed to, nd he paid his fine.

This ends one of the most remarkable cases that ever found its way into public print.

Some years ago Crutchfield and his wife came to Atlanta from North Carolina. Mrs. Crutchfield was a pretty woman and attracted attention on the streets and in other places. The couple did not live happily and they figured in more than one court episode as the result. Charges and counter-charges were made, and for a time it looked as if one or the other would secure a divorce. In fact, Mrs. Crutchfield instituted proceedings, but withdrew them.

Domestic infelicity culminated in a tragedy. Crutchfield went to the home of his wife one evening and shot her in the leg with a rifle. For a time it was thought she could not live but the limb was amputated and she is now on crutches. Crutchfield was acquitted at the trial, the jury being influenced to this verdict through a feeling that if Crutchfield were convicted his family would be a charge on the community. Judge Roan, the trial judge, openly criticised the jury for its verdict.

The direct cause of Crutchfield's banishment from the state was the assault on Colonel John Temple Graves.

In telling Crutchfield of the ultimatum of the court, Judge Calhoun stated that there was nothing for him to do but leave the state; that he had gotten a bad reputation, and the people were down on him.

Crutchfield admitted this to be a fact.

It is understood that Mrs. Crutchfield will not leave with her husband; that she will remain in Atlanta and he will pay her $40 a month as support for herself and children. She has of late made some inquiries regarding shorthand schools, and it is understood she purposes to learn stenography and try to get a position as stenographer.

Makes Offer to Minority Stockholders.

Chattanooga, Tenn., March 30.—An ultimatum was also given that if learns that Louisville and Nashvile railroad directors made an offer good until April 15, to the minority stockholders of the Chattanooga railroad. An ultimatum was also give nthat if said stockholders would not sell, the proposed buyers would not exercise their option on the majority of the stock. It is understood that the L. & N. agreed to pay one million, two hundred and five thousand dollars for Chattanooga Southern railroad stocks complete.

Cardinal Macchi Dead.

Rome, March 30.—Cardinal Luigi Macchi, secretary of apostolic briefs, died Friday after a sickness of only twelve hours of apoplexy. He celebrated mass Thursday morning. The cardinal was born in Brazil in 1832 and was elevated to the sacred college in 1889.

Report Is Denied.

Havana, March 30.—A report published here by the Commercio and the Cuba, conservative newspapers, that Consul Steinhardt was to succeed Provisional Governor Magoon, is denied by both Mr. Steinhardt and Governor Magoon.

BULLET WOUNDS KILLS PROCTOR

Cincinnati Millionaire Puts a Bullet in His Head.

Cincinnati, O., March 30.—William A. Proctor, president of the Proctor & Gamble Co., and son of one of the firm's founders, died on Thursday afternoon from a bullet wound, self-inflicted, at his home in Glendale, a suburb of this city.

When announcement was made of his death it was stated that death resulted suddenly and it did not develop until some hours later that he had shot himself in the head while alone in the bath room.

Coroner Cameron was called and began an investigation of the circumstances of the shooting and in the meantime refused to make any statement except to say that Mr. Proctor had died from a bullet wound. Mr. Proctor was widely known in business circles and was a prominent layman in the Protestant Episcopal church, to the institutions of which he was a liberal giver.

His wealth was estimated at many millions, most of which had been made by himself. He was noted for the cooperative scheme for a division of profits with employees which he had designed for his company.

Cured of Strange Affliction.

New York, March 30.—After suffering from a strange affliction for three months, which prevented him from speaking, Frank Beirlein, 37 years old, left Bellevue hospital on Thursday night completely cured. Last winter Beirlein was struck on the head with a black jack by a negro who tried to rob him. A few days later Beirlein began to lose the power of speech. At Bellevue hospital the X-ray showed that Beirlein's skull had been fractured, causing a portion of it to press upon the portion of the brain which controlled the vocal organs. An operation was performed and a small piece of the skull removed. When Beirlein recovered from the effects of the anesthetic, it was found that he could speak.

Drawback to Immigration.

New Orleans, March 30.—A draw back to immigration in the south is pointed out by Immigration Commissioner Frank P. Sargent, as follows: There is one thing the people of the south must learn in the handling of immigrants. They must pay better wages, or the foreigners will not remain with them. The south is badly in need of agriculturists, but it is not possible for the farmers and planters to keep laborers at a wage of 90 cents to $1 per day, when they can secure a wage of $2 in the cities and states of the north.

Died of Bright's Disease.

Tokio, March 29—Afternoon—The Duke of Manchester, who was traveling with James Henry Smith, of New York, who died at Kioto, Japan, on March 27, said: Mr. Smith died of acute Bright's disease, ending in pneumonia. Everything known to science was tried to check the complaint without avail. His body will be transported to his home in America by the earliest steamer.

Negro Hanged at Magnolia.

Jackson, Miss., March 30.—Chas. Coleman, a negro, was hanged at Magnolia for the murder of Iddo Dillon, another negro. The hanging was public, and Coleman made an address from the gallows, saying he was innocent, and advising his hearers to stay away from bad companions. He was pronounced dead in 22 minutes after the drop fell.

Cases of Religious Delusions.

Chicago, March 30.—Eight cases of religious delusions were tried by Judge Smiley, in the court for the insane of detention hospital Thursday. Five of the afflicted imagined that they were doomed to be nailed to a cross and three were fasting during Lent. None of the three had eaten anything since last Sunday, when they were taken to the hospial.

Young Boy Fatally Shot.

Hartwell, Ga., March 30.—The young son of Tax Collector Asa C. Cleveland was accidentally shot and fatally wounded. Dr. J. C. Jenkins, the attending physician, is doing everything possible to save the child's life, but with little hope.

NOT GUILTY, WAS MORGAN VERDICT

Unusual Scenes at Trial of Methodist Minister.

TRIAL WITHOUT A PARALLEL

During the Trial Judge, Court, Bar and Audience Bow in Prayer. Crowd Was Most Representative that Ever Attended at Trial.

Wrightsville, Ga., March 30.—The case against Presiding Elder E. F. Morgan, was concluded with a verdict of not guilty, after the jury had been out only long enough to read the papers before them.

J. M. Cook was the foreman of the jury. The personnel of the jury returning the verdict made the verdict rendered the most complete vindication that a defendant could ask. It was composed of some of the best known, and most substantial citizens of the county of Johnson, gentlemen from all portions of the county, and numbered some of the close personal friends of the prosecutor, W. J. Flanders; while a number of the jury, perhaps, never saw the defendant before he came here for trial, and only a few of them were well acquainted with him. There were very few members of the Methodist church on the jury.

The trial is without a parallel in the records of the county and perhaps of the state. The crowd attending the trial Thursday was perhaps the most representative ever in the courthouse here. It numbered the leaders of the city and county citizenry, social, business, professional and clerical; while the number of ladies present from the sounding of the case for trial at 9 o'clock in the morning until the return of the verdict at a few minutes before midnight was an unusual feature, and at the same time a tribute to the respect and esteem in which Rev. Mr. Morgan is held here. From a distance there came leading members of the South Georgia conference, and ministers of other churches.

The state's attorney had said that this was a case which showed that prayer was needed, being one between preachers. Mr. Stubbs concluded his argument by saying that he agreed with the state's attorney in his statement that prayer was appropriate and said he would accept the challenge, and thereupon called on jury, court, bar and audience to bow with him while he offered a fervent prayer that all feelings of animus and ill will might be ended by this trial, and for exact justice to be done. It was the most unusual and touching incident that has occurred in a trial here in many years.

On the return of the verdict and immediately on adjournment of court, there was an unusual demonstration on behalf of the spectators, who crowded around the defendant and congratulate him on his vindication, shook hands with the jury, applauded and then sang "Praise God from whom all Blessings Flow," and left the court room.

The people here believe the result of the trial clears the good name of the county from the odium of the prosecution.

Alabama Minister Dead.

Huntsville, Ala., March 30.—Dr. John M. Banister, 67 year old, rector of the Episcopal church of Huntsville, died Friday morning. He was a native of Petersburg, Va., He was 93 years of age, a graduate of Princeton, and before entering the ministry was a lawyer. William and Mary college conferred the degree of doctor of divinity upon him in 1869. He was the father of Colonel John M. Banister, and Major Willim B. Banister, of the United States army.

Safe Blowers Secure $3,000.

Jackson, Miss., March 30.—Safeblowers robbed the Farmers and Merchants' National bank of Hanover at an early hour Friday morning, securing $3,000. Two women heard the explosion and gave the alarm, but by the time the villagers had organized a posse, the robbers had escaped

FENNELL TALKS ABOUT HOLMES' SANITARIUM

Declares It is One of Best in South, Conducted on Good Plans.

DR. HOLMES IS A CAREFUL MAN

He Pays Strict Personal Attention to His Patients, Who Have All Modern Conveniences—A Visit Through the Sanitarium Convinced Him.

Sheriff L. W. Fennell, one of the most widely known and most popular men in the county, has recently returned from Valdosta, Ga., where he has been on a visit to Dr. J. B. S. Holmes, formerly of Atlanta, but who recently moved his sanitarium to Valdosta, Ga., in order to accommodate his numerous Florida patients.

The Sun reporter, realizing that Mr. Fennell might have something good to say, approached him in the matter of an interview. He found the genial sheriff sitting at his desk, and asked him to express himself as regards what he thought of the Holmes Sanitarium, and he replied as follows:

"I have just returned from Valdosta, where I went to place a relative in Dr. J. B. S. Holmes' sanitarium; but sorry to say that I waited too long, as you well know.

"Dr. Holmes sold out his sanitarium in Atlanta a few months ago and moved to Valdosta. I must say I was greatly surprised to see such a well equipped institution. It is a model place for sick people. He has the nicest lot of nurses, and the most attentive, that I have ever seen, and the arrangement and furnishing of the building is all that could be desired. The rooms are all outside ones, well ventilated, lighted and heated. His operating and sterilizing rooms appear to me to be perfect.

"The location of the place is a quiet one, with no paved streets or other noises to disturb sick people. Every room in it is occupied, while other sick persons are waiting to come.

"The Sanitarium is managed by a lady of ten years' experience, and she certainly knows her business.

"The operating room is in charge of a nurse who has also had about ten years' experience, and from the appearance of things in it, she is certainly the woman for the place.

"I was shown all through the place by the superintendent, Miss Chase. It is the cleanest house that I have ever seen.

"The people of Florida and South Georgia ought to be proud that they have such a place for their sick ones so close at home. There is no use for them to go to Atlanta, Baltimore, New York or anywhere else for treatment when they can get as good so near at home and at much less expense.

"I have known Dr. Holmes for twenty years. I owe my life to him today. Had it not been for his skill I would have been dead several years ago. I know that no doctor living is more attentive to his patients than Dr. J. B. S. Holmes.

He is good wherever you put him, even on all night fox-hunts. I hope he may live long, and I for one will never forget him for the many kindnesses shown me and my kinfolk and friends."

PLANS HAVE BEEN RECEIVED.

Congressman Clark Hands Postmaster Lynch Plans of Government Building.

The plans for the proposed government building, which have been enlarged and improved from the original, have been received from the department at Washington by Congressman Frank Clark, and have been delivered to Postmaster L. C. Lynch, with a letter assuring him that the work on the building would begin as soon as possible.

Postmaster Lynch, who is one of the most progressive citizens of the city, always manifesting a pride in its development, showed the plans to a number of people, all of whom thought they were up to date and modern in every respect.

This building, for which $50,000 is now assigned, will be located at the foot of East Main street, and will be occupied by the postoffice and United States land office. It will be of brick, concrete and marble, and a credit not only to this city, but the section at large.

Arch Jackson Purchased Carload of Fine Cattle In West Florida.

Arch Jackson has returned from Quincy and other points in West Florida, where he went several days ago to secure a carload of beef cattle for this market. The continued drought in this section has played havoc with the cattle, as well as with the crops, with the result that it has been difficult to secure good meat from the pasture in Alachua and surrounding counties. The pastures have not only wilted for lack of irrigation, but the ponds and brooks have gone dry in many instances, and the cattle have suffered for want of water, and in several sections have been dying by the score.

The West Florida country is reported more fortunate, however, and the stock is fat and sleek. There has been a sufficiency of rain which has kept the grass green and nutritious, and the ponds and creeks have been well replenished with water.

NEGRO TROOPS NOT WANTED.

All Negro Soldiers To Be Dispatched to Philippines.

Houston, Tex., March 29.—Announcement was made Wednesday at the local recruiting station that orders have been received from the war department at Washington instructing that no more negroes wil be accepted for service in the army.

Announcement was also made that all negro troops in the United States will be dispatched forthwith to the Philippines.

The Houston recruiting station has been foremost in the enlistment of negroes.

Washington, March 29.—It has stated at the war department that the reason the order was issued discontinuing further recruitment of negroes is because the existing military organization authorized by congress has now been filled up to its maximum strength, including the battalion members of which were dismissed without honor as the result of the Brownsville affair.

The department itself announced several months ago that all the negro troops of the United States, with a small exception affecting some short time men and a few at the West Point Military academy, had been ordered to the Philipines, and this order has been codified only so far as it affects the companies of the Twenty-fifth infantry supposed to have some knowledge of the Brownsville affair who may be wanted as witnesses in this country. In the case of that organization the order to go to the Philippines has been rescinded.

Pat's Conclusion.

A native of the Emerald Isle chanced to meet a fellow workman who was once his boon companion in a powder factory where a terrible explosion had occurred.

"Are you glad you left the arsenal, Pat?"

"Bedad, I am, Micky. If I had been working there now, I would have been dead a year ago!"—London Tit-Bits.

DR. ROGERS' CONDITION.

Is at Piedmont Sanitarium, Atlanta, and Condition Unimproved.

Friends of Rev. S. B. Rogers, pastor of the First Baptist Church of this city, who was taken to the Piedmont Sanitarium, Atlanta, Ga., several days ago, will regret to learn that his condition is considered yet quite serious, which means that it has been unchanged since leaving the Odd Fellows' Sanitarium here, where an operation was performed upon him some-time ago.

A letter received from Dr. Rogers by his wife a couple of days ago is anything but encouraging. The letter stated that a consultation between Dr. McRae, manager of the Sanitarium, and three others, has developed nothing new.

Friends of Dr. Rogers in this city and throughout the State are in great sympathy with him, and trust that he will soon sufficiently recover to return to his home and family. He has the prayers of the Christian community, regardless of denomination.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

Will Move to Tioga.

E. Ludwig, who, with his family, has been a resident of this city for the past two or three years, has decided to remove to Tioga, where he will again engage in the phosphate industry. Mr. Ludwig was for a long time connected prominently with the American Oil and Chemical Company, manufacturers of turpentine, creosote, etc., from pine stumps. The company's interest and plant having been sold to other parties, however, Mr. Ludwig has decided to resume the phosphate work, at which he has always been successful.

Why

Have a torpid liver when Herbine, the only liver regulator, will help you? There is no reason why you should suffer from dyspepsia, constipation, chills and fever, or any liver complaints, when Herbine will cure you. F. C. Waite, Westville, Fla., writes: "I was sick for a month with chills and fever, and after taking two bottles of Herbine am well and healthy." Sold by W. M. Johnson.

A HIGH COMPLIMENT.

Attorney Robt E. Davis Appointed to Good Office.

The Times-Union of Friday, the 29th inst., has a notice of the appointments made by the president of the Florida State Bar Association, in which Col. Robt E. Davis of this city is named as a member of the committee on legal education. This is one of the most important standing committees of the Association, and the appointment is indeed a compliment not only to Attorney Davis, but the city as well.

This committee is a most important one, and it is its duty to examine and pass upon the proposed changes in the system of legal education, and to examine the practical workings of the present law in regard to the admission of candidates for practice in this State, and to contest the right of all applicants whom the committee feels are not qualified.

This is quite a compliment to Mr. Davis, and is duly appreciated by him.

Death of Mrs. Sharp.

T. R. Pickett of Newberry was in the city Friday. He brought information of the death of Mrs. G. M. Sharp of Tiger Bay, formerly of Newberry, which occurred a few days ago.

Mrs. Sharp was originally Miss Kate Knight, and was reared near Jonesville. Notwithstanding she was only forty-six years of age, she was the mother of seventeen children, fourteen of whom are living. Her death occurred on her birthday.

Mrs. Sharp was a member of the Baptist Church, and her funeral was conducted under that ritual. She was buried at Tiger Bay.

The Elks' Election.

The Sun through a misunderstanding, in recording the election of Gainesville Lodge No. 990, B. P. O. E., omitted the name of Major W. R. Thomas, who was elected a member of the board of trustees, also L. C. Lynch, past exalted ruler, who was again elected as a representative to the Grand Lodge, which will convene in Philadelphia in July of next year. Both gentlemen are good men and good Elks, and will no doubt continue to prove a credit to the order in general.

A DELIGHTFUL TRIP.

Picnic to Alachua Sink by Messrs. Pepper and McKinstry.

There was an interesting trip to the Sink Friday, the party being entertained by W. M. Pepper and Wm. R. McKinstry, teachers of the Bible class of the First Methodist Church, who were desirous of giving the young people a good time.

This picnic was one of the best and most successful ever held here, and those who attended were well pleased. The party left the city late in the afternoon, at returning bed-time.

A Waldo Marriage.

Weldon W. Packham and Miss Gertrude E. Triest were married Wednesday at high noon at the home of the bride's parents, Mr. and Mrs. Charles Triest, all of this city.

Mr. Packham, familiarly called "Don," is a native of England, and has been a citizen of Waldo for two years, while his bride is a Waldo girl.

Rev. D. L. Brauning performed the ceremony. A few invited guests were present and a sumptuous dinner was served. The presents received were handsome, and this young couple have the best wishes of the community.—Waldo News.

Hague School Opened.

A private letter to a friend here contains the statement that the Hague school has resumed, being opened for the extended term. The name of the teacher is not given, but it is said that the school opened with a full attendance, and indications are to the effect that the term will be a good one.

The patrons of the Hague district are to be congratulated that the term is to be extended.

Off to Tallahassee.

Hon. H. H. McCreary left Saturday for Tallahassee, where he will represent his constituents in the State Senate for the next sixty days. Senator McCreary, as has been stated, is not a representative of any faction or factions, but the whole people, and he would be glad to hear from anyone whom he can be of assistance during the session.

EIGHT MILLION MORE PEOPLE.

In the United States Now Than Six Years Ago.

Washington, March 30.—There are now nearly 8,000,000 more people in continental United States than there were six years ago, based upon figures compiled by the census bureau in a special report issued Thursday.

According to its estimates, the population of continental United States in 1906 was 83,941,510, an increase over 1900 of 7,946,935. The population of the United States, inclusive of Alaska and the insular possessions in 1906 was 93,182,240.

The growth in population in continental United States from 1905 to 1906 was 1,367,315. Computed on the basis of the estimate, the density of population of continental United States in 1906 was 28 persons per square mile, compared with 26 in 1900.

The five leading cities and estimated population in 1905 are:

New York, 4,113,045; Chicago, 2,049,185; Philadelphia, 1,441,735; St. Louis, 649,,320 and Boston 602,-278.

Preached Own Funeral Sermon.

Spartanburg, S. C., March 30.—Thomas Harris, a young white man formerly a Baptist preacher, was hanged in the jail yard at Gaffney, S. C., Friday for the murder of Mrs. Hortense Morgan, an aged white woman, last November. Before the black cap was adjusted Harris preached his own funeral sermon. He killed Mrs. Morgan by cutting her throat after which he took $80 from her clothes. Harris narrowly escaped being lynched at the time of his arrest ,and was brought to Spartanburg for safe-keeping.

Frank Ehret Dies Suddenly.

New York, March 30.—Frank A. Ehret, 40 years old, son of George Ehret, a wealthy brewer, died suddenly of apoplexy Thursday night. Mr. Ehret was well known in racing circles. He formerly owned a racing stable which included Yorkville Belle and other fast horses.

Secret Conference Being Held.

Buffalo, N. Y., March 30.—A secret conference between delegates of the Brotherhood of Railway Trainmen and the Order of Railway Conductors, which has been in progress here for two days closed early today after ratifying an agreement formulated at Indianapolis recently to federate on all matters in dispute with the railroad companies. The agreement calls for co-operation of the officers of both bodies in order to present a united front.

Dropped Dead While Plowing.

Conyers, Ga., March 30.—Carles W. McDonald was found dead here beside his mule and plow in the field. He was seen at work up till 10 or 11 o'clock by workmen on the other side of the field. About 5 o'clock one of the workmen found Mr. McDonald dead, lying with his face on the ground. An inquest was held and the decision reached was that he died from an epileptic fit.

$150,000 Fire Loss.

LaCrosse, Wis., March 30.—Fire broke out Friday in the Manufacturing district in the buildings occupied by the LaCrosse candy and cracker company, and the W. A. Roosevelt company, wholesale plumbing supplies. It was soon apparent that both the buildings would be destroyed. Adjacent buildings are in danger. The loss will reach at least $150,000.

Entire Force Selected.

Atlanta, March 30.—At the caucus of the police board Wednesday night the entire force from chief down was agreed upon. This much can be relied upon as correct, despite the fact that the commissioners pledged themselves not to tell a thing that was done except the naming of a chief.

WHY SUCH DISCRIMINATION.

It has long been known that there is unwarranted discrimination in freight rates on vegetables and other products shipped from Florida, as compared with rates on the same products from California and other States. Many efforts have been made to remedy this evil, but so far without beneficial results. The Florida Fruit and Vegetable Growers' Association, however, which was organized at Jacksonville some weeks ago through the efforts of Frank D. Warner of this city, have now taken up this matter in a way that should accomplish results.

In a letter to the various transportation companies the Association calls attention to the discrimination, and cites the rates now in effect from various other points as compared with the rates from Florida.

We have no car-lot rates to the East on vegetables, oranges or pineapples. All shipping points in Texas, Georgia, Mississippi, California, and even Cuba and Porto Rico, enjoy cheaper freight and refrigeration rates than Florida, notwithstanding the fact that Florida produces about one-tenth to one-twelfth of the early seasonable vegetables and fruits of the country.

As an example, California, basing the rate on 100 pounds per hundred miles, enjoys a much better advantage in freight rates on oranges than Florida, California having a rate of 3.5 against our 7.2; taking New York as a receiving point. On vegetables, such as celery, lettuce, etc., California has a rate of 4.8 against 12.7 for Florida.

The refrigeration rates from California, a distance of 3,261 miles, is $67.50 per car, where Florida shippers must pay for 1,149 miles, a little more than one-third the distance, $80 per car for same number of packages.

On vegetables of all kinds the Florida shippers have a carload rate to the West, taking Cincinnati as a receiving point, of 7.1 per 100 pounds per 100 miles, and they are compelled to pay 9.8 for the same service to the East, taking New York as a receiving point, while the rates from the West, including California, are a great deal lower.

Truckers on the East Coast are compelled to pay 11.1 per 100 pounds per 100 miles to Atlanta as a receiving point on pineapples, while Cuba, several hundred miles further with a transfer to make, puts the same goods in the same market at 7.

Crystal Springs, Miss., has a rate on tomatoes to New York of 5.8 per hundred pounds per hundred miles, while from Boyington, on the East Coast, the growers are compelled to pay 10.6 to get their products to the same market.

On peaches there is another discrimination which should be corrected. The Florida growers pay 10.2 to New York as a receiving point, while the growers at Fort Valley, Ga., enjoy the same service, 250 miles nearer that market, for 8.8.

The growers of fruits are given no carload rates to the East, but they have this advantage to the markets of the West.

The Association, at considerable expense, has tabulated the rates from various shipping points and in a letter to the freight agents of the country makes exhibits and comparisons, from which data we could cite numerous other instances of injustice done the Florida shippers, but the above is sufficient. All the Florida growers ask is the same showing as residents of other States enjoy on the same products, and to this end the Florida Fruit and Vegetable Growers' Protective Association have asked for a uniform rate of five cents per 100 pounds per 100 miles and a minimum carload of 20,000 pounds, and car lot rates to all Eastern points. The request is just and reasonable, and if the transportation companies desire to be fair to Florida shippers they will grant these rates without hesitation.

AN UP-TO-DATE CONSTITUTION.

The delegates to Oklahoma's constitutional convention, after wrestling for several weeks with the task of creating an organic law for the youngest State in the Union, says The Atlanta Constitution, have at last evolved a document which appeals to the curiosity and the admiration of the country with almost equal force.

The following summary affords a glimpse at the main provisions of the document:

The initiative and referendum; direct nomination of all officers by the people; prohibition of succession in State offices; prohibition of the sale or introduction of liquor into the State; two-cent railroad fare; partial woman suffrage; prohibition of ownership in any productive agency of a natural commodity by a railroad; prohibiting corporations from owning more land than is absolutely necessary in the operation of their business; prohibiting corporations from dealing in real estate outside of incorporated cities; prohibiting the issuance of watered stock, and requiring the books of all corporations to be open for inspection at all times; provision for the State ownership of the segregated mineral lands in Indian Territory; a compulsory and separate school system; commissions to deal with charities, labor and arbitration, insurance, railroads, agriculture, gas, coal, oil, and mines; defining the term negro; prohibiting the marriage of negroes with whites, and finally, providing that the constitution may be amended by a majority vote.

These articles are, of course, supplemented by the regular stereotyped provisos without which no State constitution is complete.

A casual glance at the list given demonstrates that the makers of Oklahoma's fundamental charter have been largely influenced by the agitation current in this country. Hardly an abuse of which the country is or has been complaining but is accorded direct recognition.

If the people, on August 6th, vote to accept the constitution in its entirety the country will be given a lesson in constructive dealing with corporate aggression and other evils now looming large in the public eye.

It may be that out of the experiment will grow valuable experience by which other States—even the Nation—can profit.

The solons, at the same time, must be given credit for conservatism. They appear to have realized, from reading the lessons of history, that the evils of today may not be the evils of tomorrow. So they have taken due precautions in providing that the constitution may be amended by a majority vote of the people.

There was to have been a hearing in Tallahassee before the Railroad Commission last Thursday in the matter of erecting a new and modern union depot in this city, but owing to the fact that Hon. Frank Clark, Congressman from the Second District, and others, all of whom were deeply interested in this improvement in one way or another, could not be present, the hearing was postponed by mutual consent until April 15. There is no doubt but that Gainesville needs a union depot, and there is no further doubt in the minds of those interested that she will get it.

Harry Kendall Thaw, the slayer of Stanford White, appeared to foresee the decision of Judge Fitzgerald in the lunacy commission matter. He was not at all surprised at the decision, and remarked that he is as sane as the judge himself. It now devolves upon him to convince the commission that such is the case.

The fellow who has given the least support to the newspaper is the very one who seems to think the editor should "tear his shirt" for him when he runs for office.

THE EASTER FESTIVAL.

Written for The Sun.

The fourth century of the Christian era was a stormy period. Its history throughout is marked by the rise and fall of empires, the marvellous and sudden shifting of creeds, and the bloody scenes of religious persecutions. The Emperor Diocletian introduces the century by a sweeping extermination of the Christians. In its first decade, Diocletian and Maximian abdicate their thrones. Galerius and Constantius become Augusti. Maximion and Severus are made Caesars. Emperor Constantine (successor to his father, Constantius) is converted to Christianity. Saint Martin of Tours is born. The great Arian controversy is opened. The first general council of the Church is held at Nice. The capitol of the empire is moved from Rome to Constantinople. Constantine dies, and the Roman Empire is partitioned. What a period! The tragic civil war between the sons of Constantine opens its terrible history. The Romans suffer defeat at the hands of the Persians, and Constantius becomes sole emperor. The Synod of Arles convenes and the century, only half gone, witnesses the birth of Saint Augustine. Julian is made a Ceasar and defends his beloved Gaul. On the death of Constantius, Julian ascends the throne and paganism is once more in the saddle. Julian makes an expedition into Persia, he retreats, and dies. Before the century was three-fourths passed, Julian had died, Jovian was emperor of all Rome, and Christianity was again in full sway.

What a wonderful century! Wonderous in its rise and fall of creeds, crowns and thrones. And yet, what is still more wonderful, this century saw the first regal acknowledgement of the kinliness of the world's Christ. Under Julian, the empire lapsed into heathenism. They built again the ancient groves and shrines where once their fathers gathered. After the Persian defeat, when Julian lay dying, he exclaimed: "O Gallilean, thou hast conquered!"

And now, in serenest peace and in the splendor of her power, the Christian world comes again to her Easter tide—the day that commemorates the resurrection of her Priest and King. Out of the varied interpretations of creeds and formulas have come multiplied scores of organizations. However different these may be, they all stand by their sleeping dust and shout the triumph of the dead.

A great majority of the ancient world looked upon death as an eternal sleep. One of the old Greek muses declared: "The best thing is not to have been born, and the next best thing is to pass away as soon as possible." Another one of the Greek poets said: "The best gift of the gods to man is the power to take one's own life." In this utter blindness, and apparent care-nothingness of the future, the old Grecian drank the fatal hemlock with stoical impunity. While many held this view, others were terrorized by the tomb and the thought of death was to them a thing unbearable.

Easter—this now universal festival—belongs to the Christian world. Someone has said that in the age of chivalry, when a king wished to raise a brave man to knighthood, he struck him lightly with the sword, and then pronounced him noble. So death is but the soft sword-touch by which the Eternal King elevates his faithful subjects to the knight-errantry of the skies.

While creeds have not always expressed the doctrine of the resurrection, yet the universal world-heart throbs with a hope of life beyond the valley and the shadow. The one inconceivable thing in the spirit-world is life independent of body. Life seeks its habitation. Just as easily might we conceive of the life-germ apart from the grain of wheat as to think of the conscious spirit apart from its bodily tenement. Christianity stands or falls with the resurrection—the great central fact of all our Easter festivities. True, we must

"Weep awhile, if ye are fain—
Sunshine still must follow rain;
Only not at death, for death,
Now I know, is that first breath
Which our souls draw when we enter
Life, which is of all life, center."

At the open grave, on this Easter day, the race stands peering into the dim and distant future. It asks the question: "How are the dead raised up, and with what body do they come?" There never has been but one recorded answer to this great query: "Thou sowest not that body that shall be, but bare grain: it may chance of wheat, or of some other grain." It requires no impossible feat of the human mind to understand that physical changes may be wrought without effect on the realm of spirit. It is said that the throbbing heart undergoes raidical change in specified time. Anatomists tell us that the body passes through a perfect metamorphose within a term of years, and yet identity is undisturbed. Here is the supreme thought in the Christian faith. It may have been another—that resurrection body. But the nail-prints and the clefted side were tangible evidences that steadied the faith of Thomas. When I reach the land of the good, among all the blood-washed throng I may not find the flesh and blood of my sainted dead. But, just as the new grain of wheat is not different from the old long since dead, so shall I recognize my loved and lost in all that summerland of flowers.

Subscription to a specified creed, or to no creed at all, seems not to have forestalled these gleamings of the immortal life. Cicero, the majestic orator and silver-tongue among the Romans, said long ago: "There is, I know not how, in the minds of men, a certain presage, as it were, of a future existence; and this takes deepest root, and is the most discoverable in the greatest geniuses and the most exalted souls." Dryden, whose verse is not always in tune with the Infinite, said:

"Sure there is none but that fears a future state;
And when the most obdurate swear they do not,
Their trembling hearts belie their boasting tongues."

Colonel Robert G. Ingersoll is said to have been an agnostic. He was an arch-doubter. After every truth—any truth irresponsive to human sense—he placed the eternal interrogation point. His creed lay within the narrow boundaries of "I KNOW." Ingersoll's diction was like a poem; his thought a dream of beauty. Listen to this period pronounced by him at the open grave of his brother: "He believed that happiness was the only good, reason the only torch, justice the only worship, humanity the only religion, and love the only priest. He added to the sum of human joy; and were everyone to whom he did a loving service to bring a blossom to his grave, he would sleep tonight beneath a wilderness of flowers. Life is a narrow vale between the cold and barren peaks of two eternities. We strive in vain to look beyond the heights. We cry aloud, and the only answer is the wailing echo of our cry. From the voiceless lips of the unreplying dead there comes no word; but in the night of death hope sees a star and listening love can hear the rustle of a wing. He who sleeps here when dying, mistaking the approach of death for the return of health, whispered with his latest breath, 'I am better now.' Let us believe, in spite of doubts and dogmas, of fears and tears, that these dear words are true of all the countless dead." The question stands at the door of the universal heart:

"Can it be?
Matter immortal? And shall spirit die?
Above the nobler, shall less noble rise?
Shall man alone, for whom all else revives,
No resurrection know? Shall man alone,
Imperial man! be sown in barren ground,
Less privileged than the grain on which he feeds?"

There's grandeur in the thought—they shall sleep, but not forever; there will be a glorious dawn! That is a meaningful illustration—Sleep. Profoundly restful; it is undisturbed by the last of foes. Profoundly satisfying; its argument is life, its triumphant consummation a glorious awakening. We dread the charnal-house of the dead because of unmeasured years that may antedate the resurrection morning. To sleep forever, in a damp and narrow grave, is a thought intolerable. We forget that a peaceful slumber has no consciousness of the passing years. Death is only a dreamless sleep. In the tomb's unbroken hush a thousand years are but as a day.

Anemones have been known to spring into bloom from seed that had been buried amidst the ruins of an ancient city for two thousand years. The doctrine of the resurrection is the anemone of the Gospel—the wind-flower. It has been wafted over decaying centuries and apostate ages with the freshness of a new-blown flower. Amid the world's history of changing creeds and shifting faiths, the universal race waves its last farewell. Across the chasm of sighs and sobs it cries in exultant joy: "I believe in the resurrection of the dead!"

Each recurring Easter revives the memory of the great resurrection triumph. Resting on its promised hope, earth's lingering hosts

"Go not like the quarry-slave at night,
Scourged to his dungeon, but sustained and soothed
By an unfaltering trust, approach thy grave
Like one who wraps the drapery of his couch
About him, and lies down to pleasant dreams."

In the matter of the prompt disposition of criminal cases, says The New York Commercial, Great Britain has set us another example which, however, we will doubtless permit to pass with only casual notice and wonderment and without profit to ourselves. Young Roynor, the slayer of George Whiteley, the great department-store proprietor, was kept in jail a few weeks until his case was reached in the court calendar. When it was called the entire proceedings occupied only five hours, the jury's deliberations consuming only nine minutes of that time. Sentence of death was passed immediately after conviction, and the execution will take place within a month, the whole case being disposed of and becoming a part of criminal history within three months. The young homicide had suffered a "brain storm," like our own notable example of this novel affliction; and aside from that he claimed to be a natural son of the murdered man. There was opportunity for great sensational newspaper stories and for all the law's tedious delays; but they didn't choose to do it that way in England. The facts were told, the trial came on in due time and the case was passed on with expedition. It seems to be our pleasure to drag these things out to an unutterable limit. Do we do it for entertainment?

Don't censure a candidate because some rascal happens to be among his supporters. There are "black sheep" in every political family.

EDDINS WILL REBUILD HIS LOSS BY FIRE

The New Building Will be Modern and Well Equipped.

WILL COMMENCE WORK SOON

As Soon as the Lumber and Materials Can be Secured a Force Will be Engaged, and Machinery Will be Ready. Plant May be Enlarged.

It is a source of gratification to learn that the main building of the Eddins Manufacturing Company, which was erected about two years ago and burned on Tuesday, involving a loss of about $25,000, will be rebuilt.

As the best evidence of the energy of the owners, it may be said that almost before the smoke had cleared away, and while the ashes were still hot, preparations of removing the charred ruins was begun, and an order for the necessary lumber and supplies was filed. It is the intention of the firm to begin as early as possible with the rebuilding, and within the next few weeks the plant will be again in operation, better and more modern than ever, if it is possible to make it so.

JUDGE MASON'S COURT.

Chris Little Gave Bond for Appearance at Circuit Court.

Chris. Little, the colored man who was arrested on Thursday upon a charge of assaulting Lincoln Williams with a deadly weapon, being a shotgun, was arraigned before Judge Mason Friday, and after hearing the evidence in the case the court held the defendant in the sum of $200 bond for his appearance at the next term of the circuit court.

The bond was promptly furnished, and the defendant was released.

Little states that Williams really provoked the row. Williams came to his house, stood out in the road, called him all kinds of names, and invited him out, declaring that he would "be pleased to blow his head off."

Little did come, but he came "loaded," as the condition of Williams' face will show.

Death of Dr. Julian.

Information reached this city Friday of the death of Dr. B. F. Julian, about forty-nine years of age, who passed away at his home in Archer Tuesday night. The remains were taken to Steckton, Ga., where the interment was held.

Deceased was well known in this section, where he resided for many years. He was formerly a physician at Archer and enjoyed a good practice, but later went to Georgia, where he was engaged in his profession for a number of years. He returned to Archer, however, about four years ago, where he has since resided.

Dr. Julian is survived by a devoted wife, to whom the sympathy of The Sun and friends is extended.

SERMONETTES

BY J. MARVIN NICHOLS.

The knocks and bruises give success her peculiar charms. We learn to love our difficulties since they prove stepping-stones to victory.

Its so strange that only in the face of flood and flame do men rise to the exalted meaning of a real brotherhood. What if in the marts of trade, or along the busy highways, we all felt the kinship of the human heart. God, what a world!

People milling around a show tent entrance remind me of a bunch of steers waiting to be loaded. And when the big fellow with the megaphone begins I think of the cow-punchers pushing cattle up the chute into the cars. For the life of me, it looks just alike.

Every age has its Napoleon of finance—its Rockefeller and its Harriman. Even in the dim past Noah was able to float a stock company when all the world was forced into involuntary liquidation. And it seems as if we were approaching the age of a deluge of gold.

This is a queer old world. A man may endure the hatred and scoff of a whole community. His erstwhile best friends (so-called, for he has never been a real friend who forsakes one in a dark hour) may deliberately set him adrift. But the man who sees the distant goal, and whose whole being throbs with resistless energy, is sure "to come again." And when he does, the whole push crawls up into the band-wagon once more. The world admires a man like that—there's something resistless about the fellow that "gets up." Success is the atonement price that purchases back every cowardly heart that dares to forsake in misfortune's hour.

EUREKA!

Yes, I Have Found It At Last.

Found what? Why, that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—ELDER JOHN T. People Saving Water.

The notice in The Sun to the effect that water users were too extravagant with the use of their water seems to to have had a good effect, since the pressure is much better during the present week, and Superintendent Miller stated Friday that he experienced less trouble in keeping his pressure up for the week, probably due to the notice in The Sun. While the consumers are placed on the meter system, many of them did not really realize the serious condition of affairs as regarded the water supply until they read in The Sun of its scarcity, and immediately they proceeded to accept the suggestion of care in using their faucets.

The result has been most gratifying, and Superintendent Miller desires through The Sun to publicly thank consumers for their consideration.

ELKS ELECT OFFICERS.

Entire Ticket, With One Exception, Was Elected Same As Last Year.

Gainesville Lodge No. 990, Benevolent and Protective Order of Elks, held their annual meeting Thursday, at which the officers were elected.

Inasmuch as a great deal has been accomplished by the last administration in the matter of arranging funds for building, etc., it was deemed best to place the same officers again in charge, with the result that the entire ticket was re-elected and re-appointed without opposition, which was as follows:

Henry S. Chubb, Exalted Ruler; Robt. E. Davis, Esteemed Leading Knight; J. W. Blanding, Esteemed Loyal Knight; Rev. F. H. Craighill, Esteemed Lecturing Knight; Christopher Matheson, Chaplain; Dr. J. M. Dell, Secretary; Lee Graham, Treasurer; E. A. O Neill, Esquire; C. C. Chitty, Inner Guard; E. A. Stronk, Organist; T. B. Ellis, Jr., Tyler; J. B. Padgett, E. E. Cannon, J. S. Jolly, Trustees.

Christopher Matheson was appointed to succeed Rev. S. B. Rogers, who is suffering from a long illness. Mr. Matheson is a young man well known here, and will prove efficient in that capacity.

LIKED SPECIAL EDITION.

Gainesville Lodge No. 990 Expressed Their Sincere Thanks.

Gainesville Lodge No. 990, which was well attended Thursday night, demonstrated its appreciation of the kindness showed by The Sun in getting up a special write-up of the new home by a rising vote of thanks.

The Elks without exception appreciate the effort of The Sun to give them something worthy of especial note, and all feel under obligations to this paper for its work in this direction.

Is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby—the best worm medicine ever offered to mothers. Judson Jottings.

Judson, March 28.—John H. Edwards and Miss Maggie Danise, white, both of Levy county, were happily united in matrimony Tuesday. They came to Judson, accompanied by Miss Danise's brother and sister and Mr. Edwards' brother and sister. The marriage ceremony was performed by R. S. Tucker, a notary public. Everything went off quietly and in a very impressive manner.

Well, we are still very dry and are getting dryer every day. Some farmers have part of their crops up—some a very good stand, and others, one-half and three-quarters of a stand, but they are working what they have. Others have not planted yet, waiting for rain. Everything looks very gloomy here.

Just Because

Your cough is only in the throat and does not trouble you now, don't think that it needs no attention. When it has not had much of a start is the time to check it. The slightest cough easily leads to pneumonia, bronchitis and consumption. A bottle of Ballard's Horehound Syrup will cure that cough. The price puts it within reach of all. Sold by W. M. Johnson.

IN THE JUDGE'S COURT.

C. C. Little Must Stand Consequences of Shooting Friend in Face.

From Friday's Daily Sun.

There was an interesting little shooting scrape on Tuesday, according to the reports of those interested, near Gainesville.

On Thursday a negro by the name of Chris. Little was arrested for assault, the warrant having been sworn out by Lincoln Williams, another negro, who alleges in his warrant that Little was the aggressor, and that he shot at him with intent to kill.

The two men, who reside in a southwestern direction near the city, it appears from what can be learned, became involved in a difficulty, when they barricaded themselves in their own homes. Williams claims, so the information goes, that Little began firing, and after a short time a load of shot from Little's gun penetrated his face, wounding his eye.

The prisoner was brought before the county judge Thursday, waived examination, and gave a bond of $300 for his appearance today, which was promptly furnished.

Little is said to be a progressive kind of a man, engaged in the cattle industry. He will be on hand promptly at the trial, so his bondsmen say.

THE MUNICIPAL LEAGUE.

Meeting Thursday Night Interesting and Largely Attended.

The meeting of the Municipal League, which was called for Thursday night by the chairman, Hon. E. C. F. Sanchez, was well attended, and those present seemed to manifest a great deal of interest in the proceedings.

While nothing of the proceedings in general are published, the proceedings were public, and any person was welcome to the meeting.

Several interesting addresses were made, and the League renewed its determination to stick to the original ticket, and proposes to show the administration element "a thing or two" at the polls.

Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

CATARRH A UNIVERSAL BLOOD DISEASE

Catarrh is usually worse in Winter, because of the cold, damp and suddenly changing climate. Colds are contracted, and neglected and as the secretions from the different inflamed membranes are absorbed into the blood the unpleasant symptoms of the disease commence. The nostrils are stopped up and a constant dropping of mucous back into the throat keeps up a continual hawking and spitting. The patient has dull headaches, ringing noises in the ears, and often slight fever and a depressed, half-sick feeling accompanies the disease. The blood becomes so fully charged with catarrhal matter that stomach troubles are brought on, the kidneys and bladder are affected, and if the blood is not purified of the poison the lungs become diseased because of the constant passage of impure blood through them. Catarrh cannot be cured with washes, sprays, inhalations and such treatment; these cannot reach the poison-laden blood where the real cause is located, and can only give temporary relief and comfort. A disease which affects the entire blood supply as does Catarrh, must be treated with a blood purifier. S. S. S. is the best remedy for Catarrh, which has grown to be a universal disease. It goes to the bottom of the trouble, rids the blood of the catarrhal matter, reinvigorates the circulation, and cures this disgusting disease permanently. When S. S. S. has purified the blood every part of the system receives a supply of fresh, healthy blood; then the inflamed membranes heal and every symptom of Catarrh passes away. Write for our book containing information about Catarrh, and ask for any medical advice you desire. No charge is made for either.

PUBLIC SCHOOL NOTES.

Interesting Batch of Items From The Sun's Correspondent.

The enrollment is now 542. The average attendance for the month ending Friday was 461.

Everybody greatly enjoyed little Connie Dean's playing at chapel exercises last Wednesday.

Last week the Senior class—Miss Maud Lewis—was awarded the High School prize, for the best little poem recited at chapel exercises. This week the Sixth grade won the Grammar School prize. The primary grades have their inning next week.

After prayers at chapel Friday morning nine sweet little girls of the Advanced First grade, dressed all in white, came out on the stage to the music of a march played by Miss Valeria Bennett, and recited in concert a pretty spring poem, and sang "Spring Has Come." The leaders bore baskets of flowers with other Easter decorations, which, much to his evident surprise as to his delight, they presented to the principal as they filed off the stage. They were compelled to respond to an encore, which they did by coming back and bowing their thanks. It was a dainty and pleasing little affair.

The High School classes have all completed their organizations, which are as follows:

Freshman—President, Earle Kelley; Vice-President, Ralph McRae; Secretary, Florence Steckert; Treasurer, Mabel Avera; Colors, Crimson and Black; Motto, Esse Quam Videre.

Sophomore—President, Dallas Bowers; Vice-President, Leo Baker; Secretary, Inie Thomas; Treasurer, Earle Taylor; Colors, Red and White; Motto, Vestigis Nulis Retrorsum.

Junior—President, Heloise Vidal; Vice-President, Lena Hunter; Secretary, Bessie Kelley; Treasurer, Jasper Malphurs; Colors, Purple and Gold; Motto, Fas Facere Audiamus.

Each of the High School classes will be represented in the commencement exercises by two orators and two essayists, names to be announced later.

The Sophomores greatly regret that the health of Henry Baker, one of the brightest and most faithful members of the class, has necessitated his temporary withdrawal from school.

Now with these last two months come the trying time, when the weak fall by the wayside and the strong go on to greater strength. Several Freshmen have given up the fight and fallen by the wayside; but there is still a good sized class to carry the Sophomore colors next year.

The junior class—a fine class of ten—will, as it now appears, go through intact. If so we will have ten graduates next year, and every one of them a boy or a girl of whom their parents and the school can justly be proud.

The honor roll for February was as follows:

Juniors—First, Bessie Kelley; second, Lena Hunter; third, Tom R. McBeath.

Sophomores—First, Julia Bunch; second, Ida McDonald; third, Ethel Durst.

Freshmen—First, Annie Treadwell; second, Lois Mikell; third, Sidney Godwin.

Eighth Grade—First, Joe Swanson; second, Annie Rutherford; third, Alma Harrold.

Seventh Grade—First, Agnes Spencer; second, Douglass McDowall; third, Ethel Neal.

Sixth Grade—First, Yeteva Rogers; second, Louise Smith; third, Roy Nixon.

Fifth Grade—First, Sarah Dawkins and Mamie Fagan; second, Pierre Vidal; third, Josie Johnston.

Fourth Grade—First, Mary McKinstry and Eleanor Nixon; second, Ethel Watson and May Graham; third, Fred Beeman and Drayton Orr.

Second Grade—First, Nora Stalls; second, Marvin Dell and Laura Colson; third, Mamie Crouch.

Advanced First Grade—First, Henry O'Neal; second, Harry Merchant, Annie Dorsey and Velma Shands; third, Louise Ellis

ELKS' BILLIARD HALL.

Tables Have Been Set Up, and Are Drawing Good Crowds.

Three pool tables and one billiard table, which were ordered several weeks ago by Gainesville Lodge No. 990, B. P. O. E., have been received, duly set up and placed in commission.

These tables were set up and ready for use Thursday evening, since which time they have been constantly in use. They are of the best make, standard size, and will prove quite an attraction at the club-room.

Only Elks and their friends visiting the city will be entitled to the privilege of these tables, but they will be kept busy.

The billiard room at the Elks' club is a most attractive place, overlooking the elegant home and park of Col. H. F. Dutton. The place is delightfully cool, and is bound to prove popular among the members of the order and their friends.
